

Tailored programmes

General French

The CIEL de Strasbourg designs tailored programmes aimed at international institutions, companies, universities, business schools or secondary schools. The French classes can be accompanied by visits and trips, contacts with leading players in the economic or social life of the town, training in European issues, etc.

Contact us by supplying details of the group requiring training, their level, their objectives, in addition to the period and duration of their stay in Strasbourg. We will reply with a complete, comprehensive proposal.

Business and professional French

Upon request, the CIEL de Strasbourg can produce tailored programmes aimed at:

- **French or foreign companies:**

- Classes held within the company itself or in a training centre for groups of foreign employees.
- Improvement in written and spoken French for foreign supervisory staff employed in French companies: these can be adapted to take into account the tasks, working documents and typical communication situations that the person will encounter in his or her job.
- Other possibilities

- **Universities, business schools or international institutions:**

- Study courses in business and professional French and visits to companies specially organised to ensure total linguistic immersion for groups of students from a foreign business school.
- The European Léonardo programme: linguistic improvement (professional French), visits to companies and cultural visits.
- Other possibilities

The French classes can include contact with key players from the economic or social life of the town, training in European issues, visits and trips.

Please feel free to consult us, supplying details of the target group, their level, their objectives, the period and length of their stay. We will reply with a detailed proposal.

One of the CIEL of Strasbourg's specialities is the design and creation of tailored training activities, particularly concerning the French language, adapted to specific objectives or to European issues.

Training course for teachers of French

The CIEL de Strasbourg can produce tailored programmes upon demand for universities, international institutions, or groups of French teachers.

At any time of the year, the "language, civilisation and methodology and multimedia as part of language classes" course can be organised for any group of teachers.

The CIEL de Strasbourg works with the French Ministry of Foreign Affairs to help improve the level of foreign teachers of French. As such, thus far we have received teachers from the following countries: Germany, Austria, Canada, Colombia, Korea, Costa Rica, Croatia, Denmark, El Salvador, the United States, Indonesia, the Lebanon, Hungary, Libya, the Czech Republic, Romania, Slovakia, Slovenia, Thailand and Vietnam.

If you are responsible for a group of teachers, you can send us a "schedule of conditions" detailing your needs including information about the target group, its objectives, the time of year and duration preferred for the course, etc. In return we will send you a detailed proposal.
